SOLAR TOOL KIT

Article number: 178203

The "Solar" tool package is specially designed for installation and maintenance work on photovoltaic systems. It is ideal for equipping CimCase and Gigant empty cases or as an addition to existing electrical equipment.
The set includes the CnC Solar crimping tool for precise and standard-compliant connections in the PV sector, as well as the PV-Strip Pro wire stripper for safe and accurate stripping of solar cables. Additional accessories support the professional installation and processing of PV connectors.
